

Abigail Findlay

Associate

My career spans global creative agencies, start-ups and international development - from leading campaigns for Nike, Apple and Stella McCartney to shaping the Girl Effect in East Africa. I've built and led creative agencies, launched new ventures for Wieden+Kennedy and Warner Records, and guided organisations through change. Now, as a certified leadership coach (ACC), I combine that experience with leadership coaching and applied neuroscience to help creative & marketing leaders and teams reach their full potential.
